

FLAMEBLOCK AGRI

Fire Protection for
Agriculture

PRODUCT INFORMATION

FlameBlock Agri is specially formulated for the agricultural sector to protect farms, crops, and livestock from devastating fires. Developed with advanced materials, it enhances water retention and fire suppression, ensuring farms stay safe and productive.

KEY FEATURES:

- ✓ Reduces the water tension for better penetration into scrubs and grass
- ✓ Enhances water absorption and retention in vegetation and soil
- ✓ Environmentally friendly and safe for crops and livestock
- ✓ Designed for effective veld and agricultural fire suppression

APPLICATIONS

- ✓ Protecting barns, silos, and storage facilities
- ✓ Safeguarding crop fields and forestry areas
- ✓ Fire suppression in grazing lands and livestock zones

BENEFITS:

- ✓ Reduces fire spread and damage risk
- ✓ Protects critical agricultural infrastructure
- ✓ Helps meet fire safety regulations for farming operations
