

FLAMEBLOCK FIREBREAK

Emergency Firebreak Control Agent

PRODUCT INFORMATION

FlameBlock FireBreak offers fast, effective control when creating firebreaks. Also effective in emergency and high-risk situations. This environmentally safe, easy-to-use solution is ideal for suburban and veld conditions, extinguishing fires faster than water and leaving behind nutrient-rich fertiliser.

KEY FEATURES:

- ✓ Provides greater control when creating firebreaks
- ✓ Converts to fertiliser after use
- ✓ Non-toxic and safe for the environment
- ✓ Easy to apply by hand or spray

APPLICATIONS

- ✓ Firebreaks in open veld or high-risk zones
- ✓ Treatment of thatch overhangs and fire-prone vegetation
- ✓ Fire prevention in suburban areas where traditional firebreaks aren't allowed

BENEFITS:

- ✓ Reduces carbon footprint using naturally sourced raw materials
- ✓ Safe for people, animals, and the environment
- ✓ Helps prevent the spread of wildfire
- ✓ Supports sustainable land management with biodegradable ingredients
