

FLAMEBLOCK LITHIUM BLACK

Fast Action for Lithium-Ion
Battery Fires

PRODUCT INFORMATION

FlameBlock Lithium Black is a cutting-edge suppressant designed to rapidly extinguish lithium-ion battery fires, preventing thermal runaway and re-ignition. It's ideal for EVs, battery storage, and industrial applications.

KEY FEATURES:

- ✓ Rapidly cools down the battery
- ✓ Intervene with the chemical reaction
- ✓ Encapsulate the oxygen radicals released by the battery
- ✓ Discharge to prevent re-ignition

APPLICATIONS

- ✓ Residential, commercial, and industrial buildings
- ✓ Schools, hospitals, and public institutions
- ✓ Fire compartmentalisation in buildings

BENEFITS:

- ✓ Prevents fire and smoke from spreading
- ✓ Protects occupant safety and evacuation routes
- ✓ Supports compliance with building codes

**MOLECULARLY
