

FLAMEBLOCK SHIELD

Structural Fire Barrier Paste

PRODUCT INFORMATION

FlameBlock Shield is a high-performance fire-resistant mastic paste that works with mineral wool to form robust fire barriers. It is essential for firestopping around penetrations and maintaining structural fire integrity.

KEY FEATURES:

- ✓ Fire-resistant mastic paste
- ✓ Used with mineral wool for fire barriers
- ✓ Durable and compliant with fire safety codes

APPLICATIONS

- ✓ Sealing cable penetrations and service openings
- ✓ Fire barriers in walls and floors
- ✓ Industrial and commercial fire compartmentalisation

BENEFITS:

- ✓ Maintains the integrity of fire-rated assemblies
- ✓ Prevents the passage of fire and smoke
- ✓ Ensures compliance with safety standards
